

COMP4009 - Foundations of Computer Systems

Week 1 – Introduction

Dr Shumao Ou
sou@brookes.ac.uk

Topics

- Numbering Systems
- Data Representation
- Computing Logic
- Boolean Expression
- Assembly Language
- Processor Scheduling
- Parallelisation
- OS File Systems
- OS Sharing
- OS Memory

Schedule

Week	Topic	Activity	Assessment
1	Numbering Systems	Lecture & Practical lab	
2	Data Representation 1	Lecture & Practical lab	
3	Data Representation 2	Lecture & Practical lab	
4	Computing Logic	Lecture & Practical lab	
5	Boolean Expression	Lecture & Practical lab	
6	Consolidation	Coursework 1	Timed assessment (2 hours, 40%)
7	Assembly Language	Lecture & Practical lab	
8	Parallelisation	Lecture & Practical lab	
9	OS File Systems OS Sharing	Lecture & Practical lab	
10	OS Memory	Lecture & Practical lab	
11	Assembly Programming	Lecture & Practical lab	
12	Consolidation	Coursework 2	Timed assessment (3 hours, 60%)

Assessment

- 100% Coursework
 - Coursework 1: Design a Logic Circuit (40%)
 - Coursework 2: Design of Operating Systems (60%)
- Both are timed assessment

Module Delivery

Lectures: Tuesdays 13:00-15:00, JHB.B.08
(Lecturer: Dr Shumao Ou & Dr Safras Iqbal))

Practical: Tuesdays 15:00-18:00
15:00-16:00 NHHB.1.09 & NHHB.1.10
16:00-17:00 NHHB.1.18
17:00-18:00 NHHB.1.17 & NHHB.1.18
